

Ult-Emax

The one-man inspection solution

Ult-Emax is the easier, longer-lasting and more cost-effective solution to counter increasing demands for inspection, health and safety during handling operations and mounting problems of theft and vandalism. **Ult-Emax** is designed to answer all your requirements for:

- Flexible sewage management
- Efficient, ergonomic cover handling
- Cost-effective security
- Durable savings

Ult-Emax

Saving time, money and effort on scheduled inspections

- 
- 1 Easy inspection**
Unlocking/opening smaller cover gives sufficient access for jetting, camera investigation and many other inspection operations.
 - 2 Health and Safety emphasis**
Ergonomically designed, lightweight 20kg cover easily rotates towards hinges for safer operation and reduction in work-related injuries. Slave cover is only 25kg.
 - 3 Anti-theft deterrents**
Specific master keyhole hidden in the nose of the cover and unique spring bar locking system locks covers in place once closed.
 - 4 Automatic locking**
thanks to built-in spring bar.
 - 5 Easy maintenance**
Both hinges are self-cleaning.
 - 6 Enhanced durability**
Load Transfer System (LTS) significantly improves installation and product lifespan.
- Both covers are easily and separately removable to allow eventual man-entry.

SAP code	Cincom code	Clear opening (mm)	Overbase (mm)	Depth (mm)	Inspection cover mass (kg)	Pallet quantity
205763	BG06 1	600 X 600	806 X 806	100	20	10
211605	BG22 1	675 X 675	880 X 830	100	26	10
205765	BG14 1	600 X 600	806 X 806	150	20	10
211606	BG30 1	675 X 675	880 X 830	150	26	5

Saint-Gobain Pipelines recommends the use of LTS high-performance resin polyester bedding mortar (SAP code 190277)
